

W501 Function Added to W Cylindrical Lock Series Offering

Falcon Locks adds the W501 Push Button Locking Entry Function to the W cylindrical lock series. Falcon Locks has added the W501 function to its offering on the popular Opening Price Point W series cylindrical locks. The W501 function is available on its versatile Dane and Quantum solid, pressure-cast zinc levers and the Hana and Elite knobs in five finishes.

W501

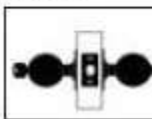

F82-2

Entry Lock
